

## ***Disclaimer for the “B/Pressure: Barbershop Blood Pressure Improvement Initiative”***

### Disclaimer

This blood pressure screening program is part of a pilot project to improve awareness of high blood pressure and help connect people to care. The blood pressure kiosk and related educational materials that are available in this barbershop are for informational and screening purposes only. They are not intended to diagnose, treat, or monitor any medical condition and are not a substitute for professional medical advice.

Barbers participating in this program are only able to share educational materials, explain how to use the blood pressure kiosk, and encourage you to follow up with a healthcare provider. It is your responsibility, and not the barber’s, to confirm the results of the blood pressure screening and seek follow-up care. **If you have any questions about your health or receive a reading that concerns you, please contact a qualified healthcare provider. If you experience a medical emergency, please dial 911.**
